

RENMARK IRRIGATION TRUST

Constituted by a Statute of the Parliament of South Australia 1893

ABN: 38 139 833 773

149 Murray Avenue
PO Box 15
RENMARK SA 5341

1 October 2019

IMPORTANT! QUARTERLY WATER ACCOUNT BALANCING IS HERE

From 1 July 2019, the Department for Environment and Water (DEW) is enforcing quarterly balancing of Water Licences. Significant financial penalties now apply if water use is not covered by water allocations on Water Licences at the end of each quarter (refer enclosed).

To ensure that Renmark Irrigation Trust's (RIT) Water Licence remains compliant with DEW's requirements RIT has made changes to its water policies.

There is now a requirement that all RIT customers have enough water allocation on their water accounts to cover all water use by each of the following due dates:

| Quarter/Usage Period: | | Must be balanced by: |
|-----------------------|-------------------------------|----------------------|
| First Quarter | July 2019 to September 2019 | 30 November 2019 |
| Second Quarter | October 2019 to December 2019 | 29 February 2020 |
| Third Quarter | January 2020 to March 2020 | 31 May 2020 |
| Fourth Quarter | April 2020 to June 2020 | 30 June 2020 |

Any water account that remains unbalanced after each of the due dates will be balanced by RIT **with the cost being charged to your account as at the due date.**

Please contact the office if you need further information or help balancing your water account. Any customer experiencing financial difficulties is encouraged to contact RIT immediately.
